

13. March, 16h15 – 17h45

Session Title: **Robotic Agenda for the Inspection & Maintenance in the Energy Sector**

Organiser(s): Tjibbe BOUMA, Quasset, Netherlands (bouma@quasset.com)
 Ekkehard ZWICKER, ALSTOM Inspection Robotics, Switzerland (zwicker@iinspection-robotics.com)
 Sieger TERPSTRA, SHELL, Netherlands (sieger.terpstra@shell.com)
 Hakon FERKINGSTAD, GASSCO, Norway (hhf@gassco.no)
 Mauricio CALVA, CHEVRON, UK (mcalva@chevron.com)

Content: Oil&Gas and Power Generation Asset Owners have defined an agenda for the robotic inspection & maintenance from end user perspective. Further they have started to organize them self to implement robotic technology. Objective is present and to discuss this robotic agenda with the euRobotic community and to define research & development needs.

Agenda of the workshop: Introduction by the moderators
 Presentation of the robotic road-map
 How industry of the energy sector has organized them self to implement robotic technology
 Round Table Discussion / Brainstorming
 Summary, Conclusion

Speaker(s): Tjibbe BOUMA, Quasset, Netherlands (bouma@quasset.com)
 Ekkehard ZWICKER, ALSTOM Inspection Robotics, Switzerland (zwicker@iinspection-robotics.com)
